3. Glover Lanes Update: The Council and volunteers have cleaned the building 2 of the last 3 weekends. Council is still making decisions on how to finish cleaning up the building and how to sell the building. Some smaller things (chairs) have been salvageable. There are people interested in some of the bowling parts and City needs to resolve the personal locker issue.
4. Community Forum Update: Feb 24th is the date. Still looking for good overall questions. Have asked the Council to get us a question by late January.
5. Trails and Parks: Having this topic a main point of community forum. Carlos Espinosa information has been given to Russ. The SRTS trail will be fixed by 2015 with a ½" overlay.
6. EDA 2015: Brian has attended meetings lately regarding workforce, DMC, and SMIF: From these meetings he has found that the unemployment rate in our area is between 0-2% and SE MN as a region is going to keep meeting on finding ways to solve the issue.
