

Meeting commences at 5:04pm

In Attendance: Jon Nienow, Sean Sannes, Russ Buege, John Stiles

Unable to attend: John Prigge, Phil Kalmes

Others in attendance: Brian Moehnke

1. **Agenda Review:** Agenda is accepted unanimously.
2. **September Minutes Review:** Accepted unanimously.
3. **Finances:** Brian went over an economic numbers review he put together. Takeaways, the citizens are doing well financially. However, housing is a little slow, especially if on market right now. Also, there are few to no lots in Lewiston compared to our surrounding cities; which are reasonably priced because they are older developments. Our lots our city could create would be 10-15K more expensive for same size of lot.
4. **Glover Lanes Update:** The Council wants the EDA to get a sign for the building. Brian asked for more details than just a sign; cost of building, contact, size of sign, etc. Per Sean, the Council is investigating how to clean up the building. Once this is decided, more information will be available to get a sign ready.
5. **Nature Preserve, SRTS, Trails Updates.** Nature preserve will need to grow another year before we make next recommendations or steps. Council is also investigating with City Attorney what we can do to get the trail behind the elementary school up to par.
6. **Community Forum:** Brian is going to contact Jeff Apse & Natalie Siderius to set up a preliminary meeting, as the Council approved to do a community forum.
7. **Other Business**
  - a. The flashers and signals were talked about. Teresa is aware of the issue and is looking into the issue.
  - b. There are also bike racks stored by the City that are not being used.

Meeting adjourned at 6:00pm. Accepted unanimously. Prepared by Brian Moehnke
